

It's **EASY** to get creative with **picnik**

1. Visit www.LACAMERAS.com
2. Click on the gray Online Services tab. **(Image 1)**
3. At the top of the page, click on the “Click Here To Upload, Edit & Order Your Photos”
4. Log in to your account. If you do not have an account, sign up.
5. Upload your photos to a new collection or click on a collection you have already created. Click “View” to expand the album. **(Image 2)**
6. Select a photo to edit by hovering over it. Click “View” to open the image. Click “Edit Photo” to begin using the Picnik Photo-Editing Tools. **(Image 3, 4)**
7. Picnik will load its tools. At the top of the page, there are two tabs: **Edit** and **Create**. The Edit tab **(Image 5)** is used for basic editing, such as Cropping, Brightness, Contrast, Color and Sharpening. The Create tab **(Image 6)** provides access to many creative effects, text, borders, touchups and stickers. Experiment! You can rely on the Undo button.
8. When you're done, or you want to save your current look, click the “Save Changes” button **(see Image 7)**. Be sure to click “Save a New Copy” if you don't want to save your editing over the original photo. Saving a new copy will keep your original untouched, and give you a new file with your creative touches.
